

Pine Lake SEED presents

Conflict Wildlife in the Urban Environment

A lecture by Kaitlin Goode, DNR

As part of our quarterly lecture series, SEED presents Conflict Wildlife in the Urban Environment with Georgia DNR Urban Wildlife Program Manager Kaitlin Goode. Kaitlin will cover an introduction to the DNR and the different ecotypes in the Atlanta area, along with common wildlife species you'd see. She will also open up to a Q&A, so bring your questions about Pine Lake's wildlife. Kaitlin will be able to provide detailed information and debunk myths about conflict wildlife like foxes, beavers, deer, raccoons, geese, coyotes, muskrats, and more. Children are encouraged to attend and will be given priority seating right up front!

Saturday, February 29th

10:30 AM– 12:00 PM

Pine Lake Beach House
